CALIFORNIA LEGISLATURE—2005–06 REGULAR SESSION

## ASSEMBLY BILL

**No. 2215**

---

**Introduced by Assembly Member Goldberg**

February 22, 2006

---

An act to add Section 35120.1 to the Education Code, relating to school district governance.

### LEGISLATIVE COUNSEL'S DIGEST

AB 2215, as amended, Goldberg. School districts: governing board: compensation.

(1) Existing law prescribes the compensation that a member of the city board of education of a school district or the governing board of a school district may receive for his or her service based on specified average daily attendance in the school district for the prior school year.

This bill would require a school district in which the average daily attendance for the prior school year exceeded 500,000 to compensate each member of the city board of education or the governing board of the school district who serves on the board to receive as compensation for his or her services a salary, ~~as specified,~~ *commensurate with time spent on board duties* and receive employment benefits on the same terms as certificated teachers of the school district. The bill would require the county board of supervisors to ~~established~~ *establish* a specified salary schedule. The bill would require, no later than June 30 of each year, each board member to notify the board president of his or her intended time commitment for the next fiscal year.

By requiring that local entities comply with the above requirements, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: yes.
